

Hello,

This is a senior web developer from Hong Kong.

Looking for Providers on an ongoing basis contract.

If you want to join us as a Provider

- You must be an individual not working for a company or team.
- You must be patient and have good communication skills.
- You should be able to have a meeting instead of me.
- You need to have a verified Upwork account and LinkedIn account.

Or we can create a new Upwork account with your info together. (upwork.com)

- I will log in the Upwork account on a separate pc (or vmware) placed on your home by using AnyDesk remotely for bidding, interviewing, and projects management.

It's because I should log in the Upwork account under your local ip address.

- When I get the first job on Upwork, you need to do an ID/Video verification call with an Upwork agency to prove that you are a real person.
- You will get fixed monthly salary or xxx% (we will discuss the revenue in details when you are interested in this position) of my monthly earning on Upwork.

So, it will be between \$100(min \$100) ~ \$2k(max \$5k).

There are already many providers in my team, and we are making more and more profits together as time goes by.

The first benefit of this position is that you will get a regular/safe income every month.

Contact us by Email or on Skype.
